EXTENDED SMART WIFI

Full Wifi Coverage Throughout Your
Home & Office

**EXPANDED WI-FI
COVERAGE**

**UNINTERRUPTED
CONNECTION**

**NEVER BE TOO
FAR FROM
YOUR WIFI
CONNECTION
AGAIN**

EXPANDED WIFI COVERAGE & UNINTERRUPTED CONNECTION

Designed to Work with your Home or Office WiFi

The Extended Smart WiFi can be used to create a scalable solution as big or small as needed for the deployment scenario, from office buildings to retail locations, hotels and with your home. To ensure easy installation and management, the Extended Smart WiFi uses a controller-less distributed network management design in which the controller is embedded within the product's web user interface. On-premise Wi-Fi management platforms. It is the ideal Wi-Fi AP for voice-over-Wi-Fi deployments and offers a seamless connection with Grandstream's Wi-Fi-capable IP phones.

PoE

3x3: MIMO Technology

FEATURES

- 1.75Gbps aggregate wireless throughput and 2x Gigabit wireline ports
- Dual-band 3x3:3 MU-MIMO technology
- Self power adaptation upon auto detection of PoE or PoE+
- Support 200+ concurrent Wi-Fi client devices
- Up to 175-meter coverage range
- Advanced QoS to ensure real-time performance of low-latency applications
- Anti-hacking secure boot and critical data/control lockdown via digital signatures, unique security certificate/random default password per device
- Embedded controller can manage up to 50 local GWN series APs; GWN.Cloud offers unlimited AP management; GWN Manager offers premisebased software controller
